

Daniele Gammelli

Research Interests: The goal of my research is to develop the algorithmic foundations and system-level methodologies that enable AI-powered autonomous systems to operate safely, efficiently, and reliably in complex, unstructured, and high-stakes environments.

Address: Stanford University
Department of Aeronautics and Astronautics
496 Lomita Mall, Stanford, CA 94305

Email: gammelli@stanford.edu

Website: <https://danielegammelli.github.io>

Education

- 2019 - 2022 **Doctor of Philosophy (Ph.D.)** in Machine Learning and Mathematical Optimization
Technical University of Denmark, Kgs. Lyngby, Denmark
Department of Technology, Management and Economics
Advisor: Prof. Francisco C. Pereira
- 2016 - 2018 **M.Sc. in Management Science and Engineering (Honors)**
Sapienza University of Rome, Rome, Italy
Focus on Machine Learning, Applied Mathematics, Statistics
Advisor: Prof. Laura Palagi
- 2013 - 2016 **B.Sc. in Management Science and Engineering**
Sapienza University of Rome, Rome, Italy

Research Experience

- Oct 22 - Present **Stanford University**, CA, US
Department of Aeronautics and Astronautics
Postdoctoral Scholar
Advisor: Prof. Marco Pavone
- Jan 19 - Sep 22 **Technical University of Denmark**, Denmark
Department of Technology, Management and Economics
Graduate Student Researcher
Advisor: Prof. Francisco C. Pereira
- Oct 21 - Mar 22 **Stanford University**, CA, US
Department of Aeronautics and Astronautics
Visiting Researcher in the Autonomous Systems Lab
Advisor: Prof. Marco Pavone
- Aug 18 - Dec 18 **Amazon EU**, Luxembourg
Research in Amazon Transportation Services (ATS)

Institutional Responsibilities

- Oct 22 - Present **Center for Aerospace Autonomy Research at Stanford (CAESAR)**
Research Fellow
- Oct 22 - Present **Center for Automotive Research at Stanford (CARS)**
Research Fellow

Honors, Grants, and Awards

- 2024 - 2025 **Blue Origin Grant** (USD 750,000 - GBP 553,000)
Grant as Associate Member and Co-Founder of CAESAR
Wrote Statement of Works for Year 1 and 2 on behalf of Prof. Pavone at Stanford.
Overseen all research projects in collaboration with Blue Origin with an overall team of 20 researchers and engineers, led regular meetings, organized documentation and code deliveries, organized annual meeting bringing together participants from academia, industry, and government.

- 2024 - 2025 **NASA University Leadership Initiative (ULI) Grant**
 (Total: USD 8,100,000 - GBP 5,974,770 | Year 4-5: USD 2,000,000 - GBP 1,475,250)
 Wrote report for Year 5 of the project on behalf of Prof. Pavone at Stanford.
 Hosted monthly seminars featuring more than 20 talks across 9 institutions. Helped organize the yearly meeting, bringing together 8 organizations involved in the grant.
- 2022 **Kaj og Hermilla Ostenfeld's Award**, *Denmark* (DKK 36,339 - GBP 4,210)
- 2022 **Otto Mønsted Research Fund**, *Denmark* (DKK 25,000 - GBP 2,890)
- 2022 **Reinholdt W. Jorck og Hustrus Award**, *Denmark* (DKK 20,000 - GBP 2,310)
- 2022 **IDELLA Foundation Research Grant**, *Denmark* (DKK 15,000 - GBP 1,730)

Educational Activities

Teaching Experience

- 2022 - 2025 **Stanford AA203: Optimal and Learning-Based Control**
 Graduate course, Department of Aeronautics and Astronautics, Stanford
Principal Instructor
 Co-designed course on optimal control and reinforcement learning. Lectured, wrote course notes, designed slides, supervised projects, and held office hours.
- 2025 **United States Air Force Test Pilot School: AI/Autonomy Emerging Tech Course**
 Special Course, Stanford Engineering Center for Global & Online Education, Stanford
Co-Instructor
 Co-designed course on AI and an introduction to robot autonomy. Lectured and designed slides on Reinforcement Learning and Imitation Learning.
- 2025 **Stanford AA174: Principles of Robot Autonomy**
 Undergraduate course, Department of Aeronautics and Astronautics, Stanford
Lecturer
 Lectured on algorithmic approaches for autonomous decision making, trajectory optimization, and robot motion planning.
- 2020 - 2022 **DTU 42186: Model-Based Machine Learning**
 Graduate Course, Department of Technology, Management and Economics, DTU
Teaching Assistant
 Prepared exercises, course notes, and official exams.
- 2019 - 2021 **DTU 02456: Deep Learning**
 Graduate Course, Department of Applied Mathematics and Computer Science, DTU
Project supervisor
 Held office hours and mentored students for their final class project.

Research Supervision

PhD Advising

- 2022 - 2025 Carolin Samantha Schmidt - Ph.D. at DTU (now Postdoc at TU Munich)

Research Mentorship

Supervised M.Sc. theses and mentored 6-12 months Ph.D. research projects (e.g., visiting research stays, rotation projects).

- 2025 Patrick Benito Eberhard - MSc at ETH Zurich
- 2025 Clemens Christoph - MSc at ETH Zurich
- 2025 Lukas Schroth - MSc at ETH Zurich
- 2024 - 2025 Max Ronecker - Ph.D. at TU Graz
- 2024 - 2025 Amirhossein Afsharrad - Ph.D at Stanford
- 2024 - 2025 Luigi Tresca - Ph.D at Politecnico di Torino
- 2024 - 2025 Davide Celestini - Ph.D at Politecnico di Torino
- 2024 Xinmeng Zeng - Ph.D. at Stanford
- 2024 Michelle Ho - Ph.D. at Stanford
- 2023 Aaryan Singhal - B.Sc. at Stanford
- 2023 Benedikt Schesch - M.Sc. at ETH Zurich
- 2023 Connie Liou - Ph.D. at Stanford

2022	Peter Mørch - M.Sc. at DTU
2022	Marco Enzo Squillacioti - M.Sc. at DTU
2021	Aikaterini Antonoudi - M.Sc. at DTU
2021	Andreas Arambatzis - M.Sc. at DTU
2021	Tobias Gylling Konradsen - M.Sc. at DTU
2021	Christian Dandanell Glissov - M.Sc. at DTU
2020	Mathias Niemann Tygesen - M.Sc. at DTU
2020	Kasper Pryds Rolsted - M.Sc. at DTU
2020	Nikolaos Nakis - M.Sc. at DTU

Broader Mentorship

- 2023 - 2024 Mentor for the [Ignited Fellowship](#).
 Provided mentorship for high-school teachers with full-time summer fellowships, with the goal of bringing modern and engaging real-world examples to the classroom.
 Ardsher Ahmed - High School Teacher, Greenfield High School, Greenfield, CA

List of Publications

Shared first authorship: *

Shared last authorship: †

Preprints / In preparation

- [U1] **D. Gammelli**, M. Foutter, A. Elhafsi, M. Ganai, and M. Pavone. *Adversarial Games for Structured LLM Self-improvement*. In Progress. 2025.
- [U2] **D. Gammelli**, M. Foutter, and M. Pavone. *A Vision Language Agent for Autonomous Rover Navigation*. To be submitted to AIAA SciTech by December 2025. 2025.
- [U3] P. B. Eberhard, L. A. Pabon, **D. Gammelli**, H. Buurmeijer, A. Lahr, A. Carron, M. N. Zeilinger, and M. Pavone. *Graph Neural Model Predictive Control for High-Dimensional Systems*. To be submitted to International Conference on Robotics and Automation (ICRA) by September 2025. 2025.
- [U4] X. Li, M. Alharbi, **D. Gammelli**, J. Harrison, F. Rodrigues, M. Schiffer, M. Pavone, E. Frazzoli, J. Zhao, and G. Zardini. *Reproducibility in the Control of Autonomous Mobility-on-Demand Systems*. Under Review at IEEE Transactions on Robotics (T-RO) [**Impact Factor 10.5**]. 2025.
- [U5] X. Li, **D. Gammelli**, A. Wallar, J. Zhao, and G. Zardini. *Accelerating High-Capacity Ridepooling in Robo-Taxi Systems*. Under review at IEEE Robotics and Automation Letters (RA-L) [**Impact Factor 5.3**]. 2025.
- [U6] M. Ronecker, M. Foutter, A. Elhafsi, **D. Gammelli**, I. Barakaiev, M. Pavone, and D. Watzenig. *Vision Foundation Model Embedding-based Semantic Anomaly Detection*. To be submitted to IEEE Robotics and Automation Letters (RA-L) by December 2025 [**Impact Factor 5.3**]. 2025.
- [U7] L. Schroth, D. Morton, A. Lahr, **D. Gammelli**, A. Carron, M. Zeilinger, and M. Pavone. *Fading-Fidelity Model Predictive Control for Slow-Fast Systems*. To be submitted to European Control Conference (ECC) by October 2025. 2025.
- [U8] Y. Takubo, **D. Gammelli**, M. Pavone, and S. D’Amico. *Agile Tradespace Exploration for Rendezvous Missions via Transformer-based Trajectory Generation*. To be submitted to IEEE Aerospace Conference by October 2025. 2025.
- [U9] Y. Takubo, **D. Gammelli**, M. Pavone, and S. D’Amico. *Run-Time Monitoring for Transformer-based Globally Optimal Spacecraft Trajectory Generation*. To be submitted to AIAA SciTech by December 2025. 2025.
- [U10] L. Tresca, C. Schmidt, J. Harrison, F. Rodrigues, G. Zardini, **D. Gammelli**[†], and M. Pavone[†]. *Robo-taxi Fleet Coordination at Scale via Reinforcement Learning*. Under Review at IEEE Transactions of Control on Network Systems (TCNS) [**Impact Factor 5.0**]. Additionally **selected for spotlight presentation** at *Robotics: Science and Systems (RSS) Autonomous Vehicles Across Scales Workshop (AVAS)*. 2025.

Books

- [B1] **D. Gammelli**, J. Lorenzetti, K. Luo, G. Zardini, and M. Pavone. *Principles of Robot Autonomy*. Cambridge Press, In Progress.

Journal Articles

Theses

- [T1] **D. Gammelli**. “Learning and Control for Adaptive Transportation Systems”. Ph.D. Thesis, Technical University of Denmark, 2022.
- [T2] **D. Gammelli**. “Multiple Sclerosis Course Prediction through Combination of Machine Learning Tools”. Master’s Thesis, Sapienza University of Rome, 2018.

Organized Workshops and Seminars

- 2025 **4th Workshop on Artificial Intelligence for Space (AI4Space)**
(Under review)
Lead Organizer
Co-organized with G. Meoni (ESA), R. Del Prete (ESA), R. Talak (MIT), T. J. Chin (University of Adelaide), A. Candela (NASA), D. Aouada (University of Luxembourg), A. Rathinam (University of Luxembourg).
- 2024 **Tutorial on Data-driven Methods for Network-level Coordination of Autonomous Mobility-on-Demand Systems Across Scales**
Lead Organizer
IEEE Intelligent Transportation Systems Conference (ITSC)
Co-organized with G. Zardini (MIT), J. Harrison (Google DeepMind), C. Schmidt (DTU), L. Tresca (Politecnico di Torino), X. Li (MIT), M. Schiffer (TU Munich), F. Rodrigues (DTU), M. Pavone (Stanford).

Talks and Presentations

Invited Talks

- Nov 2025 **NASA Jet Propulsion Laboratory**, Pasadena, CA, USA
The Center for Aerospace Autonomy Research at Stanford
- May 2025 **Smart Space DeepTech**, Oxford Space Initiative x Stanford
The Center for Aerospace Autonomy Research at Stanford
- May 2025 **CEE 272M: Sustainable Mobility Seminar**, Stanford
Robo-taxi Fleet Coordination at Scale via Graph Reinforcement Learning
- May 2025 **MATSCI 82N: Science of the Impossible**, Stanford
Introduction to Space Robotics
- Jan 2025 **Stanford Robotics Seminar**, Stanford
Space Autonomy through the Lens of Foundation Models - 
- Apr 2024 **ENBIS Seminar**, Virtual
Transformers for Decision-Making: From Language Models to Trajectory Optimization - 
- Feb 2023 **Center for Automotive Research at Stanford**, Stanford
Tutorial on Graph-RL: RL, Graph Neural Networks, and Applications to Mobility - 

Conference and Workshop Talks

- May 2025 International Conference on Robotics and Automation (ICRA), Atlanta, GA, USA
Transformer-based MPC: Model Predictive Control via Sequence Modeling
- Apr 2025 International Conference on Learning Representations (ICLR), Singapore
Offline Hierarchical Reinforcement Learning via Inverse Optimization
- Oct 2024 IEEE International Conference on Intelligent Transportation Systems
Graph RL for Network-level Coordination of AMoD Systems - 
- Jun 2024 European Control Conference, Stockholm, Sweden
Real-time Control of Electric AMoD Systems via Graph Reinforcement Learning
- Jun 2024 Center for Aerospace Autonomy Annual Meeting (**Spotlight**), Stanford, USA
Transformers for Trajectory Optimization with Application to Spacecraft Rendezvous
- Mar 2024 IEEE Aerospace Conference, Big Sky, Montana, USA
Transformers for Trajectory Optimization with Application to Spacecraft Rendezvous

Jul 2023	International Conference on Machine Learning (ICML), Honolulu, Hawaii, USA <i>Graph Reinforcement Learning for Network Control via Bi-Level Optimization</i>
Aug 2022	Conference on Knowledge Discovery and Data Mining (KDD) (Oral), New York, NY, USA <i>Graph Meta-Reinforcement Learning for Transferable Autonomous Mobility-on-Demand</i>
Dec 2021	IEEE Conference on Decision and Control (CDC), Remote <i>Graph Neural Network Reinforcement Learning for AMoD Systems</i> - 
Jul 2021	ICML Workshop on Invertible Neural Remote <i>Recurrent Flow Networks: A Latent Variable Model for Density Modelling of Urban Mobility</i>
Jul 2021	ICML Workshop on Reinforcement Learning for Real Life (Best paper finalist), Remote <i>Graph Neural Network Reinforcement Learning for AMoD Systems</i> - 
Jan 2020	99th AM of the Transportation Research Board (Lectern Session), Washington, D.C., USA <i>A Machine Learning Approach to Censored Bike Sharing Demand Modeling</i>

Outreach

News Coverage

Jun 2025	Stanford News <i>Stanford engineers help prepare Air Force test pilots for autonomous technology advances</i> - 
Jun 2024	Stanford News <i>AI makes a rendezvous in space</i> - 
Jun 2024	Space.com <i>Self-docking spacecraft could be built with AI system similar to ChatGPT</i> -  Syndicated by Yahoo News - 
Mar 2024	Stanford News <i>New center harnesses AI to advance autonomous exploration of outer space</i> - 

Podcasts and Interviews

May 2025	Transatlantic Technology Summit <i>Where AI meets Global Leadership</i> - 
Jan 2022	Data Skeptic <i>Bike sharing demand forecasting</i> - 

Technical Program Committees

2025	2nd Workshop on Out-of-Distribution Generalization in Robotics Robotics: Science and Systems Conference
2023	Workshop on Bridging Learning and Algorithmic Fairness in the Operation of Urban Infrastructure and Network Systems Conference on Cyber-Physical Systems and the Internet-of-Things

Technical Review Activities

I am an active reviewer for the following venues:

Journals

JMLR	Journal of Machine Learning Research
T-RO	IEEE Transactions on Robotics
IJF	International Journal of Forecasting
SC	Statistics and Computing
JGCD	Journal of Guidance, Control, and Dynamics
TR-C	Transportation Research Part C: Emerging Technologies
TR-B	Transportation Research Part B: Methodological
TS	Transportation Science
T-ITS	IEEE Transactions on Intelligent Transportation Systems
Cities	Cities

Conferences

ICML	International Conference on Machine Learning
NeurIPS	Conference on Neural Information Processing Systems
ICLR	International Conference on Learning Representations
L4DC	Learning for Dynamics & Control Conference
IROS	IEEE/RSJ International Conference on Intelligent Robots and Systems
ICRA	IEEE International Conference on Robotics and Automation
ECC	European Control Conference
ACC	American Control Conference
CDC	IEEE Conference on Decision and Control
ITSC	IEEE International Conference on Intelligent Transportation Systems
TRB	Transportation Research Board Annual Meeting

Industrial Collaborations, Consulting, and Advisory

2023 - Present **Blue Origin**

Judicious incorporation of AI for aerospace autonomy

2023 - Present **Redwire Space**

Judicious incorporation of AI for aerospace autonomy

2022 - Present **Google DeepMind**

Learning-based decision making for network systems

2023 - 2024 **Locago** (Startup)

Scientific Advisor

Provided scientific mentoring for developing AI/ML algorithms for the rebalancing of shared micro-mobility systems

2019 - 2020 **Donkey Republic**

Bike-sharing demand prediction under uncertainty
